

MI COVID-19 SAFER DINING PARTICIPANT

To further mitigate the spread of COVID-19, this establishment has verified through a HVAC technician, engineer or other licensed professional that their ventilation is optimized to the extent possible in accordance with relevant codes and CDC guidelines for ventilation systems.

This certificate does not represent endorsement of the business by MDHHS, MDARD or MIOSHA, nor does it guarantee safety at these facilities. The companies listed have demonstrated they are taking precautions, such as ensuring safer indoor air through improved ventilation, to reduce the risk of COVID-19 spread as outlined in CDC recommendations to protect the health of employees, customers and the general public during the coronavirus pandemic.
